

EMISSIONS SOLUTIONS

Manufacturing Capabilities

Experience

- Emission Control Systems
 - Tier IV off-road DPF/SCR packaging
 - EPA 2010 / Euro VI Active DPF system and system integration for SCR
 - EPA 2007 /EuroV complete active DPF system including: controller, fuel injection system, catalyst/muffler and wiring harnesses
- Retrofit Emissions Systems (California ARB & U.S. EPA Verified)
 - Level 3+
 - Level 2+
 - Level 1+
 - Spiracle™ Crankcase Filtration
 - DPF Cleaning System
- Acoustics
 - Noise-compliant mufflers
 - Low frequency attenuators
 - In-cab noise reduction
 - Insulated mufflers
 - Structurally enhanced designs for off-road
 - Scavenged systems to enhance air filter life
 - Mufflers, resonators, ejectors, spark arrestors
 - Heat shields, clamps, mounting brackets, exhaust tubes

Substrates/Catalysts

- Diameter ranges from 7.5" to 12.5" with expanded capability for smaller and larger sizes
- Experience with ceramic (standard and thin wall), SiC and metallic substrates
- Unique manufacturing techniques that hold, seal and insulate the filter within the can.

Quality Raw Materials

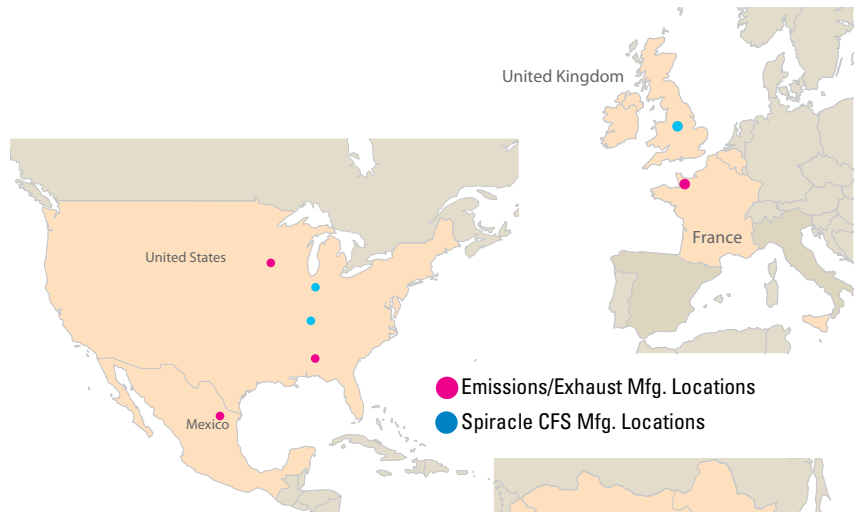

- Built for long-life, durability and corrosion resistance
- Aluminized and non-aluminized 409 SS plus other materials

Global Production Facilities

- United States, Mexico, Europe, China and Japan
- ISO 9001 and TS 16949 certified

Continued on back

Quality Controls

- Consistent, reliable product
- PLC controls are part number specific
- Each assembly is identified with manufacturing dates and lot codes (or serialized) for tracking and warranty purposes.

Packaging Options

- Returnable packaging
- Heavy-duty packaging, bulk or individually boxed
